

# Quality Policy

IMB - CNM and D+T Microelectrónica A.I.E. apply this Quality Policy in accordance with the requirements of the ISO 9001 standard.

The declaration of this Policy includes the following guidelines:

1. Commitment to comply with the applicable requirements, including legal and regulatory requirements.
2. To define and disseminate at all levels of our structure the quality objectives, based on the strategic actions derived from the context analysis carried out.
3. To implement the quality indicators and monitor the level of progress of the same, so that we can know and ensure the product and the level of quality desired by our customers.
4. To promote the rational use of natural resources and a clear awareness of favoring our environment, not only through our work, but also involving all our suppliers and customers.
5. To develop continuous training programs aimed at improving the qualifications of our workers, thus involving all personnel in the achievement of all the objectives set out in this document.
6. Commitment to the continuous improvement of the quality management system implemented.
7. To encourage and achieve a motivating environment for all the components of the entity.

The Management makes this policy accessible and available to its customers, all its employees, suppliers and interested parties.

The Quality Policy is kept up to date by means of periodic reviews, coinciding with reviews of the system by the Director, in order to consider changes in the conditions of the environment and the information received. In this sense, the Management provides and will provide all the human, technical, and economical means necessary to achieve the objectives and goals that are established on a programmed and periodic basis.
